

Procurement Management System - Request for Proposal (RFP)

1. Project Overview

This RFP outlines the procurement requirements for the **Procurement Management System**, a web-based application to manage procurement requests efficiently.

2. Requirements

- **Hosting Service:** Scalable and secure hosting for Flask applications.
- **Database:** Relational database (PostgreSQL or MySQL) for high availability and seamless integration with SQLAlchemy.
- **Version Control:** GitHub for managing the codebase with version control and collaboration.

3. Selection Criteria

- **Cost:** Competitive pricing for hosting and database services.
- **Reliability:** Proven uptime and support for handling scaling needs.
- **Integration:** Seamless integration with Flask and SQLAlchemy.

4. Proposal Submission

Please submit detailed pricing, service levels.
